

## Two Color Paracord Bracelet

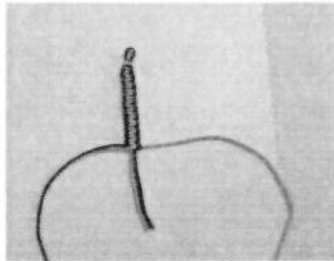

1. Cut two different colored strings of paracord 3.5 feet long. Arrange your strings in the manner shown above. The short ends should be down the middle and should be 10-10.5 inches long depending on how long you want the bracelet to be.

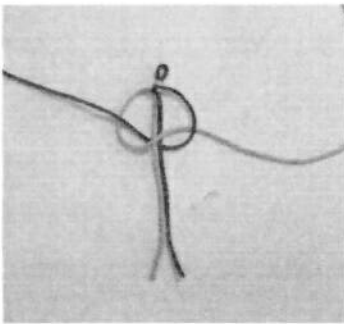

4. Left string goes under the two in the middle and over the one on the right. Then take the string on the right and go down the left loop. **\*\*Repeat steps 3 and 4 until you reach the desired length.**

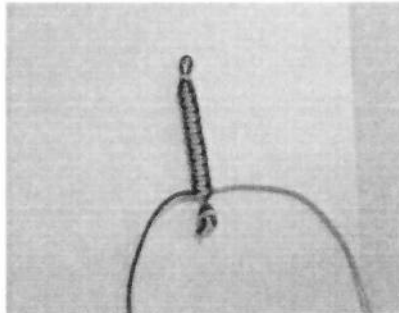

2. Left string goes under the two in the middle and over the one on the right. Then take the string on the right and go down the left loop. **\*\*This is the hardest part. As you tighten the strings be sure leave a loop at the top.\*\***

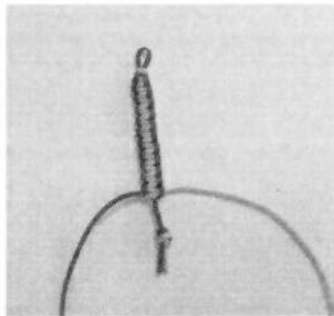

5. Your bracelet should now look like this. **\*\*The strings on the side may be shorter depending on the length.\*\***

3. Now do the opposite. Right string goes under the middle strings and over the left string. Then take the string on the left and go down the loop on the right.

6. Take both strings and make a knot.

7. Tighten the knot. With the help of your parent, cut the long strings and then fuse (burn them with a lighter so they melt) the ends. Now your bracelet is ready to wear!
