

INSTRUCTIONS FOR PERIOD PACKS FOR GO WITH THE FLOW

1. Cut two panels of coordinating fabric, each measuring 8" x 16".
2. With right sides together, serge short ends.

3. Turn piece right side out, fold the fabric like an envelope with a 2 ½" flap at the top, and then serge each side.

4. Using ¼" ribbon, secure a 30" length to the center of the flap and stitch in place at the 8" mark leaving 22" to wrap around bag to tie in a bow on front. You can use other methods (button with loop, zipper, kam snap, etc) for the closure if you prefer.

This YouTube video shows the construction technique in a quick tutorial: <https://youtu.be/2vD3RoeW600>

- For sewing instead of using a serger, with the right sides of the coordinating fabric panels facing together, sew a perimeter ¼" seam leaving an open spot.
- Trim the corners and turn the piece right side out.
- Fold over as an envelope shown in Step #3 and stitch both sides down.
- Sew on a 30" length of ribbon or use other closure as shown in Step #4.
